Members can't say enough...

"I find it amazing that there are a good percentage of administrators who never belong to any professional organization during their tenure as an administrator. NMASSP and NASSP have provided me with professional research, best practices, and state and national forums, which provide an avenue of networking with professionals who are on the cutting edge in education. I appreciate what NASSP has provided for me in my tenure as a school administrator. Thank you, NASSP."

—Pat Lujan, Assistant Principal
Goddard High School, Roswell

"I have found that being a member of NMASSP/NASSP has opened the doors to a number of professional growth opportunities. The monthly publications are super, the national conferences are both research and practitioner based, and the networking opportunities abound. As long as I am a principal—I will remain an active member!"

—V. Scott Affentranger, Principal
V Sue Cleveland High School, Rio Rancho

"Being a member of NMASSP/NASSP has given me the opportunity to utilize professional journals and publications to gain an understanding of trends in the American educational system, thereby providing professional and pragmatic resources to address current reform initiatives within my own school."
